

LK Staple Gun 3D Premium

Patented system for fixing clip rails and pipes

DESIGN

LK Staple gun 3D Premium is used together with LK Staples 3D Premium for attachment of LK Floor heating pipe against Styrofoam insulation in, for example, in pipe bends and between clip rails.

Together with LK Clip rail 16 and LK Clip rail 20, c/c 80 the rail can also be attached with LK Staple gun 3D Premium against Styrofoam insulation. Using the staple gun provides a better working position and speeds up the assembly. The staple gun is also used when attaching heating pipes to LK Foil Board 30 Silent.

The mechanism of the staple gun is safe and robust. If despite this a clip gets stuck in the mechanism, you can easily clean it by opening a cover and removing the clip which is stuck. LK Staples 3D Premium are particularly firmly attached in styrofoam insulation as the leg of the staple has a unique design equipped with holding nails on three sides.

USE

Attach the LK Staples 3D Premium and pull off the strip to release the clips. The magazine can be filled up with 3 clip strips, which corresponds to 75 clips.

In order to fix LK Clip rail 16 the staple is pressed over one edge of the rail. The clip will then attach through the pressed oblong attachment hole in the rail's base and outside rail.

Alternate the clips' attachment from side to side over the clip rail for best stability. Use 3 pcs clips per clip rail of 2 m length and use 4 pcs clips for clip rail with 4 m length.

Assemble LK Floor Heating pipe and if necessary supplement with 3D Premium pipe holders in pipe turnings and between clip-rails where necessary.

Attachment of pipes on LK Foil Board 30 Silent.

ARTICLE DATA

Art. no.	Product name	Note
188 06 72	LK Staple gun 3D Premium	
188 06 71	LK Staples 3D Premium	Insert length 38 mm. Fits pipes up to 20 mm and also LK Clip rail 16 and 20, c/c 80. <i>Note! Delivery unit 1 carton (=400 clips). Consumption approx. 1 carton/130 m²</i>
243 49 98	LK Staples	Insert length 30 mm. Fits pipes up to 20 mm when layed on LK Foil Board 30 Silent.
